

**TARR FELLOWSHIP MID-TERM REPORTS**

**From July to December 2023**

**Narratives**

The project started in early July with two components: 1. Agriculture, 2. Vocational skills training and home economies. The agriculture component enrolled ten trainees [eight males, two females] while the vocational component [sewing] enrolled eight trainees [six females and two males].

The Challenge: We need cassava processing machine for value addition. We seek donors supports for such.

Pictures and videos to this report sent via WhatsApp.

Total funding received for the mid-term \$1,125USD.
